

BIM SKILLS FOR THE SOUTH-WEST REGION

Chaired by James Duggan, Arup the Forum hosted a BIM Skills Requirements Planning Session for the South-West with engineering & construction companies in CIT in December 2018 to agree priority skills needs for the sector and education/training supports required to address these with BIM experts from UCC/MTU and Cork ETB.

There is now newly developed courses being delivered in BIM programmes in the following :

- BIM with Revit [Tralee IT, Level 6, 10 ECTS - delivered online]
- BIM for Engineering Services [CIT, Level 7, 20 ECTS. Piping Specifications, Process Systems, Revit MEP, Piping 3D Design]
- Building Information Technologies [CIT, Level 7, 15 ECTS. 3D Built Environment Modelling, Collaborative BIM]

Developing BIM Capabilities in Your Company CIT & Tralee IT Upskilling Programmes

Commencing
September 2019
Part-time,
Flexible
Delivery

These **part-time, industry focused programmes** have been developed with leading engineering, manufacturing and construction MNCs and SMEs from across the South-West region as a professional upskilling solution to key skills needs as identified by employers in the region.

Cert in Building Information Modelling with Revit

Level 6, 10 Credits. Springboard+ funded*
Online Delivery

- BIM with Revit [2 modules]
